

# Savvius Insight Orderly Shutdown Procedure

Savvius Insight has a number of running services, so if you must shut it down, there is a way to do it so that the unit powers off in an orderly manner:

- 1.** Push the power button on the back of the unit once. Wait until the unit is off and shows no LED activity.
- 2.** Remove the power cable from the back of the unit.
- 3.** The pass through ports 5 and 6 will continue to pass traffic
